

As part of our responsibilities as Accessibility Scope Facilitators, the Ecosystem team wishes to establish a wallet holding 2 million DAI of Launch Project funds at 0x3C5142F28567E6a0F172fd0BaaF1f2847f49D02F. This will enable us to react more efficiently to spending requests and opportunities rather than waiting for executive votes.

The Launch Project is already funding the work being done by Jetstream on the Easy Governance Frontend. These additional funds are expected to contribute to marketing, branding, and growth expenses, among other expenses that come up as part of the launch of the new brand for Maker.
