

Grant Title:

CoW Protocol Alerts (Analytics)

Author:

[@cowanalytics](https://twitter.com/cowanalytics)

About You:

We are a group of developers who would like to build a social media alert bot that provides daily analytics on CoW Protocol. We have been granted by Velas Blockchain and Redlight Chain to deploy protocols on their ecosystem in the past, and won a recent hackathon in Paris.

Tech Stack:

Backend: Python

Frontend: Vue JS\Typescript

Website: <https://twitter.com/VelodromeAlerts>

Grant Category:

CoWmunity growth

Grant Description:

Our objective is to design and implement a dynamic Twitter bot that delivers real-time alerts and notifications for new reward opportunities, key batch auctions, \$COW price and volume updates, major settlements, interesting transactions and other essential events within the CoW ecosystem.

Grant Goals and impact:

The main goal of this grant is keeping users informed and engaged about CoW data, our bot aims to empower individuals and foster active participation within the DeFi community.

Milestones:

Milestone

Due (Date)

Payment

To pay for servers and developers upfront, we are requesting 2500 xDAI once the grant is approved. We are comfortable with doxxing to contributors.

Milestone 1

First version of the bot is live for the community and contributors to give feedbacks and to test the product. The beta will be available within a few weeks, and the paiement will be half of the grant funding remaining (3250 xDAI).

Milestone 2

With the feedbacks from the CoW community and contributors, we will develop and publish a final product on the official twitter account @CoWAlerts

. All bugs will be fixed and we are committed to adding features as CoW grows. The final version will be live within a month, and the paiement will be half of the grant funding remaining (3250 xDAI).

Funding Request:

For developing and publishing a bot covering CoW analytics, our group of 5 developers will work on the project. To pay developers during this time and mostly to keep the bot active for years after project completion, we would like to request 9000 xDAI with a 2500 xDAI upfront.

Budget Breakdown:

Bot development : 9000 xDAI

Gnosis Chain Address (to receive the grant):

0x25Cf384c774B3F6983f42f5a893745229d19f225
