

Hello everyone!

On Wednesday (24th May) at 10am ET (3pm GMT), the dYdX Community will be having a Community Call with a member from Synthetix to discuss the topic of governance (with specific reference and points of discussion on the Synthetix governance model and how it has been moulded and optimised over the years). This is a great opportunity for us to learn from the successes, failures, highs and lows experienced by Synthetix in their journey of progressive decentralisation!

In consideration of the fact that the allocated time-slot above might lead to some users not being able to join the Community Call, I am posting this thread on the Forum so as to let you write any questions you may want asked to the Synthetix team member below. Naturally, the questions with the highest number of up-votes will get priority in the questionnaire phase of the Call.

Thanks to [@Cliff](#) from the [@dYdXFoundation](#) for organising!

Post your governance-related questions below!
