

I already have a Compass Wallet. How do I find my EVM / 0x address?

Simply open compass wallet and click the "Receive" button, and you will see both your Sei and 0x (EVM) addresses available to copy. Both addresses point to the same account.

How can I link my EVM / 0x and Sei addresses?

You can use the Sei App to link your addresses. More information and a step by step guide is available in the [Linking Addresses](#) user guide.
