

Hey folks!

The link to join the governance call to discuss the proposal pipeline and notable discussions is on the [governance calendar](#).

Date:

May 7, 2024

The agenda below will be fluid. For authors and/or key contributors of these proposals, it would be helpful if you could include a tl;dr / update of your proposal / discussion in the comments so delegates can review them and prepare their questions for the call.

For the 'proposals up for voting

', as they have been covered in previous governance calls, they will be covered relatively quickly to see if attendees have any questions. Accordingly, most of the call will be used to cover 'notable discussions' on proposals.

I've also added a Program Updates

section, where program managers of notable programs can share updates and next steps, where applicable.

Tentative Agenda
