

LTIPP Retroactive Community Funding

100,000 ARB from the LTIPP was allocated for retroactive funding to community members who add valuable contributions during the Pilot Program.

DAO members who feel they have contributed meaningfully to the LTIPP program can apply by replying to this forum thread using the application template below.

The DAO will vote via a single [Approval](#) Snapshot vote to decide which if any, retroactive applications should be paid. The DAO does not have to spend the entire 100K ARB Budget. Only applications with at least 75M votes in favor

will receive funding. If the budget is exceeded, retroactive funding will be awarded in order of most votes until the budget is exhausted.

While the DAO will decide who receives funding based on the Snapshot vote, the council and advisors may provide recommendations to the DAO given they are very familiar with what happened during the LTIPP.

Teams may edit their applications until October 7th and 11:59 PM EST

to reflect delegate feedback before applications are locked and posted to Snapshot on October 10th.

Application Template

LTIPP Contribution:

What did you contribute to the LTIPP(Include links to relevant contributions)?:

Why is this contribution meaningful to the Arbitrum DAO?:

Team Info:

Who worked on the LTIPP contribution?:

How are you involved in the Arbitrum Ecosystem?:

Requested Budget:

What budget are you requesting from the 100,000 ARB?:

What is the justification for this budget request?:

Do you agree to complete the Arbitrum Compliance process before receiving any funds?:

Timeline to apply
