

Network endpoints

The following lists all the network endpoints supported by Infura.

Ensure that you replace with an API key from your [Infura dashboard](#).

Arbitrum

Network Description URL Mainnet JSON-RPC over HTTPS <https://arbitrum-mainnet.infura.io/v3/> Mainnet JSON-RPC over WebSocket <wss://arbitrum-mainnet.io/ws/v3/> Testnet (Sepolia) JSON-RPC over HTTPS <https://arbitrum-sepolia.infura.io/v3/> Testnet (Sepolia) JSON-RPC over WebSocket <wss://arbitrum-sepolia.infura.io/ws/v3/>

Avalanche (C-Chain)

Network Description URL Mainnet JSON-RPC over HTTPS <https://avalanche-mainnet.infura.io/v3/> Mainnet JSON-RPC over WebSocket <wss://avalanche-mainnet.io/ws/v3/> Testnet (Fuji) JSON-RPC over HTTPS <https://avalanche-fuji.infura.io/v3/> Testnet (Fuji) JSON-RPC over WebSocket <wss://avalanche-fuji.infura.io/ws/v3/>

Base

Limited access Base is currently only available to a limited number of customers. If you would like access, please submit a request to support@infura.io and we will assess if your request can be accommodated at this time. Network Description URL Mainnet JSON-RPC over HTTPS <https://base-mainnet.infura.io/v3/> Testnet (Sepolia) JSON-RPC over HTTPS <https://base-sepolia.infura.io/v3/>

Blast

Network Description URL Mainnet JSON-RPC over HTTPS <https://blast-mainnet.infura.io/v3/> Testnet (Sepolia) JSON-RPC over HTTPS <https://blast-sepolia.infura.io/v3/>

Celo

Network Description URL Mainnet JSON-RPC over HTTPS <https://celo-mainnet.infura.io/v3/> Testnet (Alfajores) JSON-RPC over HTTPS <https://celo-alfajores.infura.io/v3/>

Ethereum

Network Description URL Mainnet JSON-RPC over HTTPS <https://mainnet.infura.io/v3/> Mainnet JSON-RPC over WebSocket <wss://mainnet.infura.io/ws/v3/> Goerli JSON-RPC over HTTPS <https://goerli.infura.io/v3/> Goerli JSON-RPC over WebSocket <wss://goerli.infura.io/ws/v3/> Sepolia JSON-RPC over HTTPS <https://sepolia.infura.io/v3/> Sepolia JSON-RPC over WebSocket <wss://sepolia.infura.io/ws/v3/>

IPFS

Limited access Infura is currently limiting IPFS services to customers that already have an active IPFS key. New IPFS key creation is disabled for new and existing customers. Network Description URL Mainnet HTTP API <https://ipfs.infura.io:5001> Include your authentication details when [making IPFS requests](#)

Linea

deprecation notice Linea Goerli is being deprecated. We discourage new development with this testnet and recommend using Sepolia instead. Network Description URL Mainnet JSON-RPC over HTTPS <https://linea-mainnet.infura.io/v3/> Mainnet JSON-RPC over WebSocket <wss://linea-mainnet.infura.io/ws/v3/> Testnet (Goerli) JSON-RPC over HTTPS <https://linea-goerli.infura.io/v3/> Testnet (Goerli) JSON-RPC over WebSocket <wss://linea-goerli.infura.io/ws/v3/> Testnet (Sepolia) JSON-RPC over HTTPS <https://linea-sepolia.infura.io/v3/> Testnet (Sepolia) JSON-RPC over WebSocket <wss://linea-sepolia.infura.io/ws/v3/>

Optimism

Network Transport type URL Mainnet JSON-RPC over HTTPS <https://optimism-mainnet.infura.io/v3/> Mainnet JSON-RPC over WebSocket <wss://optimism-mainnet.infura.io/v3/> Testnet (Sepolia) JSON-RPC over HTTPS <https://optimism-sepolia.infura.io/v3/> Testnet (Sepolia) JSON-RPC over WebSocket <wss://optimism-mainnet.infura.io/v3/>

Palm

Network Description URL Mainnet JSON-RPC over HTTPS <https://palm-mainnet.infura.io/v3/> Testnet JSON-RPC over HTTPS <https://palm-testnet.infura.io/v3/>

Polygon PoS

Network Description URL Mainnet JSON-RPC over HTTPS <https://polygon-mainnet.infura.io/v3/> Mainnet JSON-RPC over WebSocket <wss://polygon-mainnet.infura.io/ws/v3/> Testnet (Amoy) JSON-RPC over HTTPS <https://polygon-amoy.infura.io/v3/> Testnet (Amoy) JSON-RPC over WebSocket <wss://polygon-amoy.infura.io/ws/v3/> Testnet (Mumbai) JSON-RPC over HTTPS <https://polygon-mumbai.infura.io/v3/> Testnet (Mumbai) JSON-RPC over WebSocket <wss://polygon-mumbai.infura.io/ws/v3/>

StarkNet

Network Description URL Mainnet JSON-RPC over HTTPS <https://starknet-mainnet.infura.io/v3/> Testnet (Goerli) JSON-RPC over HTTPS <https://starknet-goerli.infura.io/v3/>
