ABOUT

DAOplomats is a meta-governance group from BanklessDAO. We aim to encourage good governance in the DAO space by expressing Bankless values and fostering a collaborative environment for the space to grow.

Our guiding principles

- United we stand:

We believe decentralisation is paramount in governing web3. We aim to represent everyday users of web3 and have their unheard voices heard.

- Net positive engagement:

We represent a community aiming to empower all parties involved and develop in a positive-sum manner.

- Quality participation

: We believe the quality active contributors could help a DAO evolve. We aim to deliver the best quality of work with minimum bureaucracy.

- Bankless

: We preach the idea of self-sovereignty and decentralization.
