

## Personal Information

Discourse ID: [@0xboreddev](#)

Twitter: <https://twitter.com/0xBoredDev>

Country of Residence: United States

## Educational Background:

BA Computer Science and Engineering

## Professional Background and Relevant Experience:

Currently a Software Architect at a global insurance company with 12 years of experience, Owner of Bored Labs, LLC. a software consulting company since 2021, Founder of the Vrbs DAO built on Base.

## Nomination Statement:

I want to see ApeCoin DAO continue to grow. I have a passion for helping others. The web3 steward position will be a crucial role in supporting and guiding developers which I excel at. I've worked on many projects leading teams of devs. With my experience in web3 and web2 I can help support and grow our developer ecosystem. I have many years of startup and development experience that will help ensure builders in our dao succeed. I'm really good at jumping in and just doing things. We need someone with ambition and who takes initiative to make change and communicate with others effectively. I believe I can provide this.

## Motivation, Vision & Goals:

The communities in ApeCoin DAO make it a special place. It is the home to an extraordinary amount of builders and creators. Working with smart and talented individuals to build something special is what motivates me. The goals I have are to help attract, support and retain quality builders in the dao. Resources and info should be easily accessible, and giving builders the tools to succeed is a big goal of mine. Another goal is to provide better insight to the value of ApeCoin DAO and the web3 projects being created from AIP's. Track how the web3 steward position is providing value exactly to the dao with key metrics.

## Values & Commitment:

Community first and foremost. We can't grow if we don't support each other. My goal is to show how powerful and life changing the blockchain is. It's important to share positivity, because you get back what you put out into the world. I'm always striving to innovate and help others. I'm dedicated to contributing to the development of the ApeCoin DAO even without this position.

## Concluding Statement:

My passion and drive for web3 development along with my experience make me a prime candidate for this position. I am fully dedicated to helping communities come together. As a web2 software architect, I will use my experience to help guide projects to success. I'll ensure builders have the tools and resources needed to achieve their goals. I have DAO experience as a founder of Vrbs DAO. I know what it takes to work as a team and contribute to a greater goal.
