

Subscribe to our [Robust communications](#), and receive a ~monthly summary of what we've been up to!

Find out more and register for [Columbia Cryptoeconomics 2023](#), held at Columbia University on Dec. 6-7. This two-day workshop will bring together practitioners, researchers, and academics to discuss challenges, recent progress, and opportunities in the economics of blockchain protocols. The workshop will consist of invited keynote presentations, contributed talks, and panel discussions. Specific topics of focus will include, for example, proposer-builder separation, MEV, layer 1 security rehypothecation/restaking, and roll-ups.

The Robust Incentives Group is an Ethereum Foundation research team dedicated to the study of protocol mechanisms with the lens of game theory, mechanism design, crypto-economics, formal methods and data science.

Looking to expand your credentials and participate in Ethereum research?

Check out our current [RIG Open Problems \(ROPs\)](#)!

Watch all [ETHconomics 2](#) videos, a research gathering at Devconnect for all things Ethereum cryptoeconomics!
