Country of Residence:

United States

Professional Background:

15 years at 5 star resorts, JRNy Gallery Manager (short time), Business Owner (online eBay, Amazon, other platform sales)

## Nomination Statement

Concise statement on why you are running for the Metaverse WG Steward

I believe that contributing to the development and understanding of the metaverse is not only essential but also a thrilling opportunity to shape the future of human interaction and digital engagement. As we move forward with the Otherside and its development, it will be crucial to include community content creators and community members as a whole to create interest in The Otherside and what it can bring to builders and interested parties outside of our ecosystem.

## Motivation

Details on your motivation for becoming an ApeCoin DAO Metaverse WG Steward

I am particularly excited about the prospect of collaborating with other industry professionals and experts who share a common goal of advancing the metaverse. Through collaborative efforts, I believe we can address issues such as ApeCoin integration, inexpensive gas fees for transactions, and overall interest in pushing The Otherside forward. Fostering innovation and establishing best practices that will benefit the entire Otherside ecosystem.

## Rationale

Share relevant experience and skills that will bring value to the ApeCoin community

My past work experience has taught me to be a clear and concise communicator. But if you are going to truly be a steward, you have to have the ability to serve the function of the position before yourself. This means you can adapt quickly and effectively, be able to take criticism, and work with all your team members. My experience working at 5 star level resorts reflects those values. My experience as an entrepreneur has taught me about being organized and efficient, while also being willing to get creative and try new platforms even though they can seem daunting. There is always a reward for trying whether it succeeds or fails.

## Specifications

Further describe relevant experience, including crypto and governance participation, and/or ideas for DAO improvement

As for many of us, my most relevant experience has come from being involved in many Web3 metaverses. From our casino night in Decentraland (which seems like a lifetime ago), to playing around in the Sandbox environments. But it wasn't until our first trip as a community that you began to see the dawn of something truly special. The Otherside in my mind positioned itself as a true leader, and I am excited to work with other communities as a representative of the ApeCoin Dao.

## Concluding Statement

Summarize your statement as to why you are the best choice for Metaverse WG Steward

I am eager and willing to contribute my time, energy, and expertise to the Metaverse Working Group. I am confident that, together with other dedicated professionals, we can make significant strides in shaping the future of The Otherside and ApeCoin. I look forward to the opportunity to collaborate with the awesome members of the working group and contribute meaningfully to the collective effort.
