

Analytics

Summary

The developer dashboard provides access to daily user count and wallet distribution data for both connected users and visitors. We'll be adding additional insights in the coming months.

Have charts you wish to see here?

Let us know if you have specific insights through any of our [channels](#) .

Usage

1. Log in to the developer dashboard.
2. Navigate to the [Analytics](#)
3. tab.
4. View the charts for daily user counts and wallet distribution.
5. The user counts and wallet distribution data is separated by connected users
6. and visitors.
7. Use the data to gain insights on the usage and financial performance of your
8. product or service.
