

Public RPC Endpoint

Note, these are not MEV protected, these are public mempool usage. For MEV shielded transactions a guide will be provided this coming week with how to submit those transactions

<https://api.staging.sushirelay.com/v1>

The following RPC Methods are now supported:

eth_Call.json eth_GasPrice.json eth_blockNumber.json eth_getBlockByNumber.json eth_getTransactionCount.json
eth_getTransactionReceipt.json eth_protocolVersion.json - fallback eth_sendRawTransaction.json
eth_sendTransaction_LEGACY.json net_version.json - fallback
