

AIP Name:

[AIP-137: The Special Council Nomination Process](#)

Implementation Status:

Complete

Author:

[@btang](#)

Abstract Summary:

For the ApeCoin DAO to function and remain stable according to our Guiding Principles, there must be a system in place for continuous governance. This document outlines the process to allow talented, passionate and capable members of the community to surface and ultimately be appointed via governance vote for the Special Council. The nomination pool will be sourced through the community, administration team, and token holders by self-nomination in ApeCoin discourse.

Overall Cost:

There is a cost for engaging an independent third-party service provider to do KYC and background verification of Applicants, which is to be determined. The Ape Foundation will pay for these costs.
