

I've been part of your Taiko Discord community from day one, but I recently discovered that I've been removed from the server. I've faithfully fulfilled all the required tasks. I am unable to continue with most task as it requires to be a discord member, would you mind restoring my access or sharing a new link that hasn't expired so I can rejoin? Your help would mean a lot to me. Thanks in advance.

My discord username is: a_yaro
