

Base

Base is an optimistic layer 2 rollup chain built by Coinbase on the MIT-licensed [OP Stack](#) , in collaboration with [Optimism](#) .

Limited access Base is currently only available to a limited number of customers. Production support is also limited. If you would like access, please submit a request to support@infura.io and we will assess if your request can be accommodated at this time. The Base network provides seamless Coinbase integrations, easy fiat onramps, and access to more than 100 million users and 100 billion in assets in the Coinbase ecosystem.

See also See the [official Base documentation](#) for more information. Select an option below to get started with the Base network.
