Abstract Summary:

We propose to thank (reward and recognize) decentralized contributions to ApeCoin with \$APE, charitable donations, and an on-chain thank you note. We will do it in a way that is scalable, automated, bot-protected... and rewards truly valuable contributions.

Thank APE is critical DAO infrastructure that can enormously increase opportunity, utility, and value for APE holders. We can encourage and thank the following categories of utility-creating contributions across platforms:

- Governance participation
- Onboarding & education
- Intra-DAO collaboration
- Defi & web3 partnerships
- Community building
- Completing Core Tasks
- Art and culture innovations
- Infrastructure innovations
