

Hi Folx,

I've been hanging around the DeFi space and participating in governance for the past few months, primarily in MakerDAO and Compound governance, but also with a few other projects.

You can find me on other discourse forums as [@monet-supply](#) and on [twitter](#). You can also review my voting history with Compound [here](#) to see if our governance philosophies align.

My commitments as a delegate:

- 12+ hrs advanced notice before I submit votes, giving time to un-delegate your stake if you disagree
- 100% vote participation

To delegate your votes to me:

1. Go to <https://app.uniswap.org/#/vote>
2. Click on "Unlock Voting" button
3. Delegate to: 0x8d07D225a769b7Af3A923481E1FdF49180e6A265

Cheers and happy voting!
