

Summary

Following [Gauntlet's departure from Aave](#), we'd like to kick off the discussion on selecting a new [risk steward](#) signer. We seek guidance and ownership from the community to consider the following potential options:

1. Assign a temporary signer to the Risk Steward
2. Wait until the Aave DAO finds a permanent signer and in the meantime, recommendations to increase supply and borrow caps would have to go through the standard Aave governance process.

Gauntlet will cancel our stream and payback the insolvency refund pro rata as soon as the community is aligned on next steps.

Next Steps

Welcome community discussion.
