

AcceleRaytor

How to Participate

AcceleRaytor is an initiative by Raydium to spearhead the growth of the Solana Ecosystem. It serves as a launchpad for the latest projects to raise capital and drive initial liquidity in a decentralized and interoperable manner, while enabling both project and Raydium communities to participate in carefully curated and vetted token offerings. If you're interested in launching a project on AcceleRaytor, please fill out [this form](#) and we'll get back to you if the project is a good fit! How to participate: AcceleRaytor launches consist of 'pools' where users can contribute funds in order to receive an allocation of project tokens. 1. 1. 2. Visit the 3. ['AcceleRaytor' page](#) 4. on Raydium. Here you can view pools and their status.

1. You can click on a pool to view additional details. Make sure to make note of the requirements to join the pool to ensure you'll be able to participate.
2. When the pool opens, to participate first make sure that you meet the requirements, check official announcements from the projects for full details. For a lottery model AcceleRaytor launch, you will see the number of 'Eligible Tickets' you have on the UI once the pool opens. You can then enter the number of tickets you'd like to deposit USDC for and enter in the lottery. You can choose to enter less than your max number of tickets, however tickets that you do not deposit USDC for will not be counted in the lottery. NOTE: You can only deposit USDC for tickets ONCE, you cannot add additional tickets later. Once you have deposited, you will be able to claim USDC amount you contributed for non-winning tickets shortly after pool closes, however you will need to wait until the specified time on the UI to claim any winning token allocations. Again, you will be able to claim back your full deposited amount for any tickets not selected to receive an allocation.
3. In order to claim your tokens for any winning lottery tickets, return to the pool at the specified claim time. Then simply click 'Claim' and funds will be transferred to your wallet! That's it! You've now participated in an AcceleRaytor launch on Raydium! [Ray Token -Previous RAY StakingNext- Protocol The Raydium Protocol](#) Last modified 3mo ago
