

Title:

[TEMP CHECK] Onboarding ETHx to Aave V3 Ethereum Market

Author:

[@marczeller](#) - Aave Chan Initiative

Date:

2023-11-12

Summary

Exploring community interest in integrating Stader's ETHx into the Aave V3 Ethereum market, to expand LST offerings and diversify liquidity options.

Motivation

ETHx represents Stader's staked ETH, providing users with liquid staking benefits. Supporting ETHx on Aave V3 continues our advocacy for LST diversity, complementing existing assets like stETH, cbETH and rETH.

Specification

- Contract Address:

ETHx - 0xA35b1B31Ce002FBF2058D22F30f95D405200A15b

- Detailed risk parameters will be formulated and shared in the ARFC phase, after positive community feedback from this TEMP CHECK.

Next Steps

1. Engage with the community for feedback.
2. If consensus is positive, proceed to TEMP CHECK snapshot stage.
3. Following a favorable snapshot, prepare a detailed ARFC with full technical specifications and plans.
4. Progress to ARFC snapshot.
5. If the ARFC snapshot is approved, advance the proposal to the AIP stage.

Disclaimer

This TEMP CHECK is presented by the Aave Chan Initiative without direct affiliation or financial incentive from Stader, emphasizing our commitment to protocol growth and diversity
