

Hi, everyone.

Recently I am trying to figure out the DAI system works. Now I'd like to find the history of payment method of stability fee.

In the white paper, it says that stability fees should be paid by DAI. But in a podcast (08:20) (<https://www.youtube.com/watch?v=SJms6PTy1wU>), Rune said that stability fees had to be paid by MKR.

So I am really confused:

1. What is the history of the stabilization fee payment method?
2. Can stabilization fees be paid with MKR?
3. Can stabilization fees only be paid with DAI or can they be paid with both MKR and DAI
4. There doesn't seem to be any polls in the voting system that are relevant to this, am I missing something here
