

Hello,

Hope all is well. By way of introduction, I'm on the Business Development team at [Bitcoin.com](https://bitcoin.com).

We are currently seeking partners for our shared partner farms program and would love Aave to join. It would be 50-50 match rewards for LP. For example, AAVE/ETH or AAVE/USDC LP launches on Verse. [Bitcoin.com](https://bitcoin.com) puts up \$25k in VERSE and Aave puts up \$25k in AAVE, and we let the farm run for however long agreed upon (e.g., 1 week with super high APY, or 2 months with moderate APY).

The Verse DEX is now ranked #12

on ETH and #67

across all chains by TVL. Check out: [Verse: TVL and Stats - DefiLlama](#)

Looking forward to hearing from feedback. Thank you!
