

There are many plug-ins available in discourse. All listed here:

[Discourse Meta](#)

[plugin](#)

Plugin directory. To post here, use the Request Access button on the group page with a link to your plugin.

There are all kinds from seeing who is online, translators to Chat-GPT.

There has been many Topics about translation in the past. Maybe this could be useful?

Translator example

[Discourse Meta – 17 Jun 22](#)

[Discourse Translator](#)

plugin

official

multi-lingual

translator

:discourse2: Summary Discourse Translator translates posts on Discourse using Microsoft, Google, or Yandex translation APIs.
