

Hello Spring Community!

Please find below an easy to use calculator for understanding the amount allocable to Allocator SubDAOs under MIP105. We will periodically update this as funds are deployed and legacy asset allocations change.

As a reminder, ALM Tier allocations are defined as collateral that can be repaid as Dai within at most:

- Tier 1: 2 weeks
- Tier 2: 1 month
- Tier 3: 6-12 months, with an average of 9 months
- Tier 4: 1-3 years, with an average of 2 years

If you have any questions, please let us know!
