

On February 21st, We will co-host a call with the Karma team to show the performance of the dashboard that we will be using to calculate the scores of the [delegate incentives program](#) that will start in March.

We believe that the participation of the community is important, so we want to invite all delegates and the DAO in general to participate in this session.

During the call you will be able to clarify all your doubts about the Karma Dashboard and Delegate incentive program.

You can access to this call here: <https://meet.google.com/nms-vgfb-duf>

Hope to see you there!
