

For greater mobilization, for clear readability, we need more regularity in the frequency of AIPs submitted to votes.

Wouldn't it be possible to "average" the number of proposals put to the vote each week ?

How to explain that there was no proposal in vote "week 48" and four "week 49"?

This does not allow each voter to be able to study in depth each proposal in this type of situation...

For example, I will propose to set a maximum of 2 proposals per week subject to votes.

Proposals submitted to the AIP Ideas category can be vague, incomplete ideas. Topics submitted here are not required to be submitted as a formal AIP Draft Template, however, you may still use the [template](#) if you wish.
