Educational Background:

Master in Computer Science

Professional Background and Relevant Experience:

I am a seasoned technology executive with over 15 years of experience in software development overall, with 6 years in blockchain specifically.

My expertise lies in leading the development of cutting-edge blockchain protocols and applications, as well as managing large-scale engineering teams. Throughout my career, I have successfully turned visionary concepts into tangible technical roadmaps, spearheaded strategic initiatives, and built robust ecosystems that drive innovation and user engagement. My background includes extensive work in cryptography, data security, identity and access management, and decentralized solutions, all of which are critical to the evolving landscape of Web3.

Nomination Statement:

I am excited to nominate myself for the position of Web3 Development Steward. Although I am just beginning to take an active role in the ApeCoin DAO, I have been a dedicated BAYC member since 2022.

Over the last year I enjoyed hanging with my fellow apes KOKO ([x.com](#)), Pinky ([x.com](#)), Jumanji ([x.com](#)), BuddyGuy ([x.com](#)) and building the SAF brand ([x.com](#)) where we managed to gather a community of thousands of degens through hosting X spaces. Behind the scenes it wasn't just the spaces for all of us, over the bear cycle we together also built cool products for degens, like ApeIT ([x.com](#)) trading telegram bot, EasyX ([x.com](#)) decentralized leverage trading dapp, Ape Express ([x.com](#)) Next Gen Degen tools and liquidity loans for upcoming ApeChain, and other products.

With a solid foundation in blockchain technology and a proven track record of leading innovative projects, I am eager to contribute my expertise to help shape the future of our community. I am committed to fostering an environment where collaboration and innovation thrive, ensuring that the ApeCoin DAO remains at the forefront of the Web3 movement.

Motivation, Vision & Goals:

My motivation for running for the Web3 Development Steward position is driven by the opportunity to contribute to the growth and success of the ApeCoin DAO, especially as it prepares to launch its own blockchain and kick start the ecosystem of dapps.

With extensive experience in ecosystem inception and growth, I am well-equipped to identify and build the necessary components for a thriving Web3 ecosystem. My vision is to create a dynamic environment that attracts innovative projects and fosters strong developer relations. My goal is to leverage my experience to help enable a robust blockchain ecosystem, with the DAO generating sustainable revenue and achieving long-term success.

Values & Commitment:

As a candidate for the Web3 Development Steward position, I am committed to fostering a collaborative and inclusive environment within the ApeCoin DAO. I believe that the strength of our community lies in our ability to work together, share ideas, and support each other in achieving our collective goals. My core values are transparency, cooperation, and innovation. I am dedicated to working closely with other elected stewards to ensure that we are aligned in our efforts and that every voice in the community is heard. Together, we can build a vibrant ecosystem that supports the development of groundbreaking projects and drives the success of the ApeCoin DAO.

Concluding Statement:

I am confident that my extensive experience in blockchain technology, strategic planning, and ecosystem development makes me the ideal candidate for the Web3 Development Steward position.

As a dedicated BAYC member since 2022, I am passionate about contributing to our community's growth and success. My proven track record in leading innovative projects, fostering strong developer relations, and creating dynamic environments for collaboration aligns perfectly with the needs of our DAO. If elected, I will leverage my skills and experience to help build together a robust blockchain ecosystem, generate sustainable revenue, and ensure the long-term success of the ApeCoin DAO.
