

Proposal Name:

Bring 20 Apes to Life

Proposal Category: Ecosystem Fund Allocation

Abstract

We believe that sculptures have the power to transform people, enliven communities, and immortalize culture. We are passionate about bringing the Bored Ape Yacht Club collection to life with 20 unique 1/1 sculptures in a way it has never been done before. They will be full body and life-size 1.9m or 6ft tall, highly detailed masterpieces made of the finest materials to be displayed in Ape Fests, BAYC Miami Club House, Web3 events, galleries and public spaces, where they will be enjoyed by people of all ages.

Proposal

We believe that sculptures have the power to transform people, enliven communities, and immortalize culture. We are passionate about bringing the Bored Ape Yacht Club collection to life with 20 unique 1/1 sculptures in a way it has never been done before.

Our sculptures will be full body and life-size 1.9m or 6ft tall, highly detailed masterpieces made of the finest materials. Each of the 20 sculptures will be unique, capturing the essence of the Bored Ape Yacht Club collection. The sculptures will be displayed in Ape Fests, BAYC Miami Club House, Web3 events, galleries and public spaces, where they will be enjoyed by people of all ages.

We believe that these sculptures will aid to massively promote the IP. The sculptures will be more than just works of art. They will be symbols for the Bored Ape mission's and values. They will inspire viewers to create, bring the people within and outside the community closer, bring people joy and create a sense of pride and wonder.

Which apes will be chosen to be made into a sculpture?

Each ape will be able to participate through a form in which they agree they want their ape to participate. After having all participants, the selection will be made through a community vote.

Who owns the sculptures?

The DAO

What will happen with the sculptures?

They will be auctioned at ApeFest 2 or online to the BAYC and MAYC community. The purchase will be powered by Ape Coin and funds will go back to the DAO.

Sculptures will be able to be replicated for a fraction of the cost in the future for the DAO. Replicating them won't be labor intensive. This includes apes variations since many traits are shared through the collection.

Author Description

I'm Victor Tacher a sustainable development engineer with passion for art, culture, sculptures and web3. Been working tirelessly for the Bored Ape Community for more than a year. I've been completely and obsessively focused on getting the volumetric work of the Bored Apes to the finest detail and bringing them to life with the highest quality possible. I have a proven track record of making high quality sculptures for the BAYC community.

Here are our 4 main works for the BAYC community:

An ultra high detailed 1.9m-6ft sculpture for the Dabbing Dad:

Team Description

Our team is a multidisciplinary group of 15 experienced professionals with a passion for art, culture, and sculptures. Our team members include:

- Sculptor artisans with over 9 years of expertise in sculpting, molding and casting
- Bronze artisans with expertise in casting, sculpting, and finishing
- Sculpture painters with experience in color theory and composition
- Digital artists with expertise in modeling, animation, and rendering
- Wixarika artisans with expertise in Wixarika technique
- Carpenters with expertise in woodworking and construction
- Stonemasons with expertise in stonecutting and masonry

Our team has a proven track record of success in creating high-quality sculptures, public art installations, and commissioned works. We are confident that we have the skills and experience necessary to create a series of 20 life-size sculptures that are both beautiful and inspiring.

Motivation

We are passionate about creating works of art that have lasting cultural impact. We believe that these sculptures will be a powerful symbol of the Bored Ape Yacht Club community and its commitment to creativity and innovation. We are also excited about the opportunity to bring these sculptures to people all over the world and inspire them to create and innovate.

Rationale

The Bored Ape Yacht Club sculptures can only be pure symbols and reflection of the Ape Community's mission and guiding values.

Specifications

The sculptures will be created using a variety of techniques, including sculpting, molding, casting, additive technology, airbrush blending, stippling, shading, and highlighting.

Steps to implement

The 20 sculptures will be made in 4 months:

1. Creating internal metal structures. - 1 week
2. Sculpting and modeling the apes - 1 month
3. Adding realistic textures on top of the sculptures. - 1 month
4. Painting the sculptures with various methods, including airbrushing - 2 weeks

5. Fabricating the marble bases - 1 week
6. Fabricating the shipping box and intervening it with graffiti - 1 week
7. Shipping - 1 week
