

Optimism is home to some incredible contributors and delegates. The Collective has expressed interest in recognizing delegates that are actively contributing to Optimism Governance but may have less reach or visibility than well known delegates. The Collective appreciates you and wants to highlight your contributions!

As outlined in [Delegate Discovery Initiatives](#), this thread is a place for delegates with >0.5% of the voting supply to highlight delegates with <0.5%. This list can serve as a reference for token holders looking to make delegations to delegates with less visibility.

Delegates might consider those that have:

- contributed meaningfully to governance conversations
- would bring a new perspective to Optimism governance
- done work that furthers the [Optimistic Vision](#)
- participated consistently in building the Collective
- demonstrated expertise that is relevant to the governance decisions required of Token House delegates
- demonstrated any other qualities you believe are worth highlighting

Please include the delegate's name/pseudonym and the link to their [delegate profile](#) in the thread below. You might also consider sharing:

- a sentence or two about why you've chosen to highlight this delegate
- something this delegate has done that you admire
- a particular project, action, or voting rationale that you learned from
