recursiveTryCatch (/Users/user/Drift/keeper-bots-v2/src/index.ts:473:3)

Misc Transaction Errors

Since running a Keeper is a profit-seeking endeavour, it is not unusual to run into competition while filling orders and liquidating dangerous positions. These errors can happen at various commitment levels, and how you handle them will be dependent on your skillset and craftiness. If you're looking for friends, come to [#dev-chat\(opens in a new tab\)](#) and leak some alpha
