

gm Arbitrum DAO contributors and delegates,

During the [Expanding Tally Support for the Arbitrum DAO](#) proposal process, a number of delegates including [@dk3](#) [@krst](#) [@Sinkas](#) [@JoJo](#) suggested an open discussion period to collect feedback on how we can improve our governance tools and mechanisms in the Arbitrum DAO.

I created this thread to serve as an open forum for people to share their ideas. I'm also planning to facilitate a live, open brainstorming session on Thursday April 4th at 1pm UTC. Once we've collected enough high-quality ideas, we can create a DAO proposal to execute on them.

Everyone should feel free to contribute not only their ideas on how to improve our governance tools and mechanisms, but also ideas on how we should structure the project to execute on them. My proposal [Expanding Tally Support for the Arbitrum DAO](#) is one way to structure things, but it doesn't have to work that way in the future. For example [@krst](#) suggested establishing a governance R&D fund that makes longer-term bets to support key governance initiatives.

Cheers!
