[source of photo](#)As Delegates we will focus on representing the interest of our constituents. We are a dedicated team that is focused on progressing DeFi.

We have ample experience with DeFi through Synthetix and Curve. In order to submit proposals 1% of UNI needs to be held by a Delegate.

Once we have reached the 1% goal we will hold meetings on what kind of proposals we should make.

So, if you have UNI and would like to participate in governance please consider us for delegation. Delegate and let your voice be heard.
