

Event Indexing

Events are updated every minute

getEvents([EventQueryFilter](#))

Get a list of historical events that happen on the Clusters application that can be replayed to get the full state.

```

Copy constevents=awaitclusters.getEvents();

```

Returns

```

Copy { "nextPage":"jXZ3XA7Tgl", "items":[ { "eventType":"register", "clusterId":3, "bytes32Address":"0x0000000000000000000000000822b5a721b4bcf8e627f0dc287c57f187d0b17dc", "address":"0x822b5a721b4bcf8e627f0dc287c57f187d0b17dc", "addressType":"evm", "data":{"name":"torje", "weiAmount":1000000000000000000 }, "timestamp":1706799767 }, { "eventType":"register", "clusterId":4, "bytes32Address":"0x0000000000000000000000000d64477d0f5fe7e6b8486a336fe694ef7789ab912", "address":"0xd64477d0f5fe7e6b8486a336fe694ef7789ab912", "addressType":"evm", "data":{"name":"misconix", "weiAmount":1000000000000000000 }, "timestamp":1706799779 }, { "eventType":"updateWallet", "clusterId":2, "bytes32Address":"0x00000000000000000000000000000000006533ecb269f92a09d8541e84e485332f", "address":"0x000000006533ecb269f92a09d8541e84e485332f", "addressType":"evm", "data":{"name":"main", "isVerified":1 }, "timestamp":1706799790 }, ] }
