

Hello everyone! I am a Research Analyst at Covalent HQ and we created some endpoints for Lido that are currently being used by some developers, so we wanted to extend them to the discord community as well

. These are for Lido ETH, but we can do Lido Polygon as well if there is interest from the community!

[Get USD Staked value along with staking rewards for a given address]

https://api.covalenthq.com/v1/cq/covalent/app/lido/balances/?key=ckey_ffb6586fc46e44569b7d209c053&no-rewards=false&address=0x38770453aB0Fcfa3dA65BB681Bb5C6E09ba84FCf

[Get all the transactions for any address]

https://api.covalenthq.com/v1/cq/covalent/app/lido/transactions/?key=ckey_ffb6586fc46e44569b7d209c053&address=AE9098452872820B5C018F677C429268B1663A18
