What is (Re)delegation Week

This initiative will serve as a period to strengthen active and decentralized delegation within ArbitrumDAO by:

- bringing awareness to the importance of participation, and promoting diverse voices (through the AMA governance calls listed above)
- having more delegates actively participate in governance
- encouraging community members to (re)assess and (re)assign their voting power to active delegates who best align with their values and vision for the DAO

Check out this [forum post](#) to learn more about the role of delegates and delegators, and how and why to become a delegate or delegator.

Free (Re)delegation on Tally!

To encourage active (re)delegation, Tally will be turning on transaction relaying for the next month - this means that delegators can choose a delegate for free, as gas fees incurred for 1 per address to select a delegate, will be refunded*.

*To prevent spam, this refund will only be available to accounts that have had a balance of at least 1 ARB, as of July 15.

See you on the governance calls, and happy governing!
