

Hi,

Can someone point me to POC to get a stuck transfer to the Secret network? I tried to bridge some BNB over to get Secret. It has been pending for over a month. This was a test amount and when it never made it, I had to bridge over with ETH.

The operation ID is 69638dbb-e68d-497b-b9c5-4bf654fbf35d

Tx Hash is 0x499367a010e822aced75d17ced23a8b71acf7ff0825e8acad994cb2ae37feefb

Thanks!
