

# Astrological units

Astrological Units are rewards that users can receive when using Astaria. When using Astaria to borrow or lend supported tokens, users are able to earn rewards in the form of Astrological Units.

For each intent, a payout of Units will be automatically attributed to the wallet used to borrow or lend. 1 ETH of loan value (in ETH or USD terms) is equal to 10,000 Units. Earnings are incremental, with no minimum value; every ETH or USDC intent is eligible to earn rewards.

A wallet's Units payout total can be viewed in the UI under the [rewards page](#).
