

Domain separator

[Definition of domainSeparator](#)

Example:

```
import Web3 from
'web3' ; import
{ LimitOrderProtocolFacade , Web3ProviderConnector , }
from
'@1inch/limit-order-protocol-utils' ;
const contractAddress =
'0x5fa31604fc5dcebfcac2481f9fa59d174126e5e6' ; const connector =
new
Web3ProviderConnector ( new
Web3 ( '...' ) ) ; const limitOrderProtocolFacade =
new
LimitOrderProtocolFacade ( contractAddress , chainId , connector , ) ;
const domainSeparator =
await limitOrderProtocolFacade . domainSeparator ( ) ;
```
