About

Previously, I led the StableLab delegate team that spanned over 15+ DAOs, personally actively engaging in various DAOs including [Optimism](#) and [Balancer](#), among others.

My experience spans beyond being a delegate, having served on DeFi Committee A at Optimism, Optimism badge holder since RPGF 2, participated in the GSC at Element Finance, and contributed to the grants council at Compound.

Moreover, I have been an active contributor to the Arbitrum DAO through the LTIP initiative and am excited to escalate my involvement in this DAO.

Purpose

Since becoming a delegate in early 2022, my extensive involvement across multiple DAOs has afforded me valuable insights into the prevalent challenges faced. I plan to use that experience to support Arbitrum DAO in various ways possible, as a delegate, participating in working groups, and other opportunities that arise.

Delegate Communication Intent

I intend to regularly update the community, ensuring transparency and providing comprehensive insights into my decision-making process.

Disclosure

Presently, I am engaged with UMA & Across.
