Dear dYdX Community,

On February 2, 2024, a dYdX community member used the newly introduced [add market widget](#) to propose the addition of the JUP-USD market on the dYdX Chain.

[Add JUP-USD to the dYdX Chain](#) [Proposals

]/(c/proposals/5)

Hi everyone, we'd like to propose adding a JUP-USD perpetual market to the dYdX Chain. JUP had a successful launch with strong trading volume and is yet to be listed as a perp on major CEXs. We think this is a great opportunity to illustrate dYdX's ability to add new markets quickly and finally be competitive with market listings! Summary Wintermute is proposing to add JUP-USD to the dYdX Chain. Motivation & Rationale: JUP is the native token of [Jupiter](#) the leading DEX aggregator on Solana. It...

What is the issue?

Shortly after the [proposal](#) was made, a bug in the tool was identified, causing incorrect parameters to be included in the governance proposal.

The issue with the market listing tool was [fixed](#) today February 3rd, 2024, and the change is live on <https://dydx.trade>.

Note that the current proposal for the JUP-USD market does not pose any risk to the dYdX Chain, but incorrect parameters for the JUP-USD market were included in the proposal.

What we suggest

Given the issue with the parameters for the JUP-USD market, validators could consider voting against this proposal and allowing the dYdX community member to resubmit the governance proposal to add the JUP-USD market to the dYdX Chain

The dYdX Ops SubDAO
