

Hello Lido community,

We are excited to announce that as of 2024-07-18, CryptoManufaktur (CMF) has been acquired by Galaxy.

The infrastructure we run for Lido will remain as-is, and the same team will continue to maintain it. Our community focus remains.

Over the upcoming months our current team of SREs plan to gain additional redundancy and support through Galaxy's global footprint and infrastructure. We believe the combination will allow us to accelerate our ambitions to expand our scope of offerings to the community.

For more information on this transaction, read the [press release](#)

We are looking forward to continuing to serve Lido, and bringing Galaxy closer to this innovative ecosystem.

Any questions at all, do not be shy!

Thorsten Behrens
