

Use SecretCLI

<https://docs.scrt.network/cli/secretcli.html> The `_secretcli_` (Secret Network Light Client) is a command-line interface tool for interacting with nodes running on the Secret Network blockchain. With the `_secretcli_` you can perform many important functions related to:

- Generating keys
- Creating multisig wallets
- Sending transactions
- Deploying and interacting with Secret Contracts
- Using governance
- and more...
-
