

Hi everyone, I have a few questions about the OP DAO and its relation to the token and the upcoming airdrop. I'm interested in participating in the OP DAO, but I don't want to expose myself to the token's volatility. So, I was thinking of taking the OP token, voting on proposals, and then selling the token. However, I'm concerned that I may not be eligible for the next airdrop if I do this.

My questions are: Is it possible to lock the token in the DAO and still maintain voting power? Also, how frequently does the OP DAO team take snapshots for airdrops?"
