

Hey ApeCoiners,

What's your thoughts about organizing a side event at NFT Paris, one of the most significant gatherings in the NFT and blockchain space. Even more, maybe become a sponsor and get some official DAO members to become a speakers in the event.

Do you see the potential benefits for ApeCoin DAO in participating as a sponsor or organizing a side event at NFT Paris? How can we make the most of this platform to showcase our strengths of our DAO?

If the community shows support for this, we'll delve into the details, including potential event themes, speakers, and other logistics.

Looking forward to hearing from all of you!
