

LDO rewards for stETH/ETH curve LPs are set for expiration on August 12th.

The following proposal is to continue the rewards for the next 30 day period using the same amount: 3.75M LDO for the next 30 days.

stETH:ETH pool is the largest liquidity pool in all of DeFi, and liquidity within this pool is paramount for stETH as it is a precursor to listing on DeFi money markets.

The original proposal for LDO Curve incentive can be found here: [Incentivizing Curve stETH liquidity with LDO](#).

Voting for this proposal will feature in the weekly Lido DAO Omnibus vote set for Thursday August 5th, 2021.
