This was the first voting cycle that utilized a strategy that allowed for \$APE that has been delegated on Apechain.

If you look at the specifics, we can see that more of the delegations voting power comes from APE that is still on ETH Mainnet (mostly due to the \$APE being staked or just held in a wallet), but we can expect that to flip in the coming months.

During this voting cycle, we saw 3 new delegates added, now up to 297 delegates* with 1341 delegators. However, only 37, 40, 37, and 43 delegates voted in the AIPs 513, 555, 530, and 491, respectively.

*Note: A delegate is being defined, in this context, as a delegate with at least 1 delegator.
