

# Linear Regressor

LinearRegressorTrait provides a trait definition for linear regression problem.

...

Copy use `orion::operators::ml::LinearRegressorTrait`;

...

Data types

Orion supports currently only fixed point data types for `LinearRegressorTrait`.

Data type dtype Fixed point (signed) `LinearRegressorTrait`

function description [linear\\_regressor.predict](#) Performs the generalized linear regression evaluation.

[Previous linear\\_classifier.predict](#) [Next linear\\_regressor.predict](#)
