

Hi! I think i've got your point, you can of course upload the CSV file, but it wont be possible to stop your positions (like in those trades that you have been done). Everytime when you submit one new predictions at the weekend, they will start to be evaluated in Wednesday and finish at Monday (with payments one day after) without any user interference in the middle time.

For more informations: <https://docs.numer.ai/numerai-signals/signals-overview>

Peace!
