

Connecting MetaMask

Step 1:

After acquiring your test CAPE, you are ready to enter the main wallet dashboard. Click on 'Go to Dashboard'.

Step 2:

CAPE is currently deployed to Arbitrum's Goerli testnet. If you haven't used this network before, add it as a new network in MetaMask:

Use the following details:

- Network name: Arbitrum Goerli
- New RPC URL: <https://goerli-rollup.arbitrum.io/rpc>
- Chain ID: 421613
- Currency symbol: ETH (or AGOR)
- Block explorer URL: <https://goerli.arbiscan.io>
-

Step 3:

Return to the CAPE dashboard, and click on 'Connect MetaMask' to connect your MetaMask wallet to the CAPE application.
